**THE FLOW OF NEW, TERTIARY QUALIFIED ENGINEERS IN
AUSTRALIA, 1866-1980***

Michael Edelstein

Department of Economic History, RSSS
Australian National University

and

Department of Economics
Queens College and The Graduate School, CUNY

- * A great many debts were accumulated in the course of the census reported in this paper. I am deeply thankful for research assistance from Frances Grey at the ANU and Annemarie McShea at Queens College, CUNY. Professor Noel Butlin (ANU), Dr Ian McLean (U. of Adelaide), Brian E. Lloyd, Michael Rice, and Lucio Krbavek were very generous with advice, key documents, and encouragement at all stages of the project. The librarians at the Australian National Library, and the Menzies Library (ANU) were very patient and helpful but I would like to thank especially Kyra Suthern of the Horrie Brown Library (ANU), Les Cargill of the Australian Archives, and Rosemary Lohmann and Jill Jolly of the Institution of Engineers, Australia. Lee Rystrand of the IEA was a key contact for making available the people, documents and library of the IEA. Access to unpublished government statistics was a vital part of the project; in this regard, Fred Doors and Debby Drake-Brockman of the ABS, and Warwick Conn of the TEC were most helpful. Finally, I would like to thank the following people for supplying me with data from their respective institutions. I was truly dumbfounded by their generous and timely aid: Joan Cobb, Sydney TAFE Information Centre; K. Abeya, NSWIT; Ken C. Coles, Bendigo CAE; Helen Boyd and June Halliday, Chisholm IT; R.H. Elliot, Deakin U.; M.D. Knight, Phillip IT; G.L. Williamson, Swinburne IT; Col. B. McNulty, Queensland TAFE; B.S. Waters, Queensland IT; Anita Anderson, SAIT; P. Bianchi, Perth TC; A.O. de Sousa, WAIT; Lisle Clarris, WASM; Dr Barry Dolman, and Susan Woodburn, U. of Adelaide; Kenneth E. Smith, U. of Sydney; John Chappell, U. of NSW; B. Nalalenko, U. of Wollongong; and Glenda I. Acland, U. of Queensland.

The Flow of New, Tertiary Qualified Engineers in Australia, 1866-1980

A central characteristic of era of modern economic growth in world history is the application of a growing knowledge about the physical and biological world to the production of goods and services. In that application professional engineers have played key roles as planners, designers, constructors, and managers. This source paper presents a new count of the flow of tertiary qualified, professional engineers in Australia, 1866-1980.

I. Definitions and Notes

A. Gross Flows

A gross flow is defined as the annual production of all newly graduated, tertiary qualified engineers from a qualified Australian tertiary engineering program.

B. Net Flows

(1) Definition. A net flow is defined as the annual production of newly graduated, tertiary qualified engineers who were available to the Australian labor market. More precisely, a net flow is a gross flow less Columbo Plan foreign students who were obligated to return home after graduation. Columbo Plan engineering students began to graduate from Australian universities in 1951 and Australian technical colleges in 1952.

(2) The School Count. For each university and college which published a list of their graduates in their annual calendar, the number of Columbo Plan graduates is approximated by counting the number of graduates with Asian names. With increasing numbers of Asian-Australians involved in tertiary education in the late 1970s, this approximation becomes less accurate.

(3) The Total Net Flow Count. Unfortunately, not all universities and colleges published graduation name lists. Up to the 1970s the calendars of the U. of Queensland, U. of New South Wales, the U. of Newcastle, the U. of Wollongong, James Cook U. and Deakin U did not publish graduations lists. After 1970 nearly all universities dropped the publication of such lists. With regard to the technical colleges, graduation lists of bachelors, associates and diplomates were unavailable from Queensland Institute of Technology and the Western Australian Institute of Technology but, unlike the universities, the other colleges published good information through 1980. To estimate the total net flow, the annual ratio of net-to-gross graduates is calculated for all of the programs where both net and gross data are available. This annual ratio is multiplied then by the annual gross total for the population. Thus, the annual net-to-gross ratio for six universities is multiplied by the annual gross count for the full 12 universities to get the estimated annual net total flows of university engineering bachelors through 1970. After 1970 the data base is inadequate to support any net university flow

estimate. Annual net-to-gross ratios for 14 technical colleges and the annual gross count for the full 16 colleges are multiplied to estimate the annual net total flows of college bachelors, and college associates and diplomates.

C. Qualified Tertiary Engineers

A qualified tertiary engineer is a person who graduated from a tertiary engineering program whose graduates were approved for membership in the Institution of Engineers, Australia. These programs are set out in B. E. Lloyd and W. J. Wilkin, The Education of Professional Engineers in Australia, 2nd Ed. (Melbourne: APEA, 1962), pp. 351-355 and Brian E. Lloyd, The Education of Professional Engineers in Australia, 3rd Ed. (Melbourne: APEA, 1968), pp. 432-438. The unapproved graduates were 7.65% of new (approved and unapproved) associates and diplomates, 1890-1980, and 2.95% of all (approved and unapproved) engineers receiving a tertiary award, 1866-1980.

D. University Abbreviations

DeU	= Deakin U.	UNSW	= U. of New South Wales
JCU	= James Cook U.	UQu	= U. of Queensland
MoU	= Monash U.	USy	= U. of Sydney
UAd	= U. of Adelaide	UTa	= U. of Tasmania
UMe	= U. of Melbourne	UWA	= U. of Western Australia
UNC	= U. of Newcastle	UWo	= U. of Wollongong

E. College Abbreviations

The term 'technical college' covers all non-university, tertiary education institution, abbreviated as follows:

Bal	= Balarat School of Mines
Ben	= Bendigo School of Mines
Cau	= Caulfield Institute of Technology, later Chisholm I. T.
Chi	= Chisholm Institute of Technology
Foo	= Footscray Technical College
Gor	= Gordon Technical College
Mel	= Melbourne Technical College, later the Royal Melbourne T. C. and the Royal Melbourne I. T.
NSWIT	= New South Wales Institute of Technology
Per	= Perth Technical College
Phi	= Phillips Institute of Technology
Pre	= Preston Diploma School, later Phillips I. T.
Qu	= Queensland Institute of Technology
RMIT	= Royal Melbourne Institute of Technology
SA	= South Australia School of Mines and Industries
Swi	= Swinburne Technical College
Syd	= Sydney Technical College
Tas	= Tasmanian Department of Education
WAIT	= Western Australia Institute of Technology
WASM	= Western Australia School of Mines

F. Time Unit

The figures for the universities up to and including 1960 refer to the calendar year. The university count for 1961 covers the period from January through July 1961. From 1962 to 1967 the university count covers the year ending in July. In 1968 the university count covers the period from August 1967 to June 1968. In 1969 and thereafter the university count covers the year ending in June. The switch in ABS accounting dates had an effect on the continuity of the time series in 1961 only. In the last five months of 1961, 28 gross BEs were graduated. This represented $28/(532+28)$, 5.0%, of gross total BEs graduated in calendar 1961. The effect in 1961 on gross university BTs and BASs was similar. (In the last five months of 1961, 22 net university BEs graduated. This represented $22/(469/22)$, or 4.5%, of net university BEs graduated in calendar 1961. The effect in 1961 on net university BTs and BASs was similar.) After 1961, the changes in accounting year were such that they had slight effect because so few graduated in the relevant months. As far as can be gathered from technical college calendars and graduation lists, the calendar year remained the basis for tabulation even after various agencies of the Commonwealth government began to collect data on technical colleges in the late 1960s.

G. Engineering Specialization Abbreviations

Aer = aeronautical	Ind = industrial and production
Agr = agricultural	M&E = mechanical and electrical
Arch = architectural	Mec = mechanical
Aut = automotive	Met = metallurgical
Che = chemical	Min = mining
Civ = civil	M&M = mining and metallurgical
Com = communication	Mun = municipal
C&R = communication and radio	NAR = naval architecture
Ele = electrical	NEC = not classifiable
Elo = electronic	Str = structural
Hig = highway	

H. Error Margins

The data presented here are not comprehensive because they fail to count the small number of IEA-approved graduates from the Central Technical School, Brisbane in the 1950s and 1960s. The resulting undercount probably represents, at most, .5% of those qualifying during these decades. A remaining error results from the inevitable discrepancy between counts based on graduation lists and those based on student card files. Where both types of data were examined, student card counts varied between -1% and +1% around the graduation list counts; adopting this range as the error margin for the aggregates presented here seems appropriate.

II. The Sources

A. Universities

A variety of sources are required to generate data on university bachelor awards. Hence, in the listing of data sources presented here, it is necessary to list separately the sources for gross specialty data, gross engineering bachelor totals, net engineering bachelor totals and gross total bachelors. The beginning and ending dates noted for gross engineering degrees and gross bachelor degrees are the dates of data availability but since the sources for these totals are comprehensive they also represent the life span of the degree up to 1980. The beginning and ending dates noted for the specialty data are the dates of data availability.

Columbo Plan foreign student receiving engineering degrees first appear in 1951 and continue to the final date of this study, 1980. Prior to 1951 gross and net totals are identical. Net data are noted in this source appendix, present or not, for the years, 1951-, only. The sources listed for the net data are annual or cumulative name lists which permit a count of Asian names. In all cases where such data are available, the first Columbo Plan graduates are known. Published name lists in university calendars almost entirely disappear in the early 1970s, so while Columbo Plan students were still receiving degrees at universities, their approximate numbers cannot be discovered with these sources.

The Australian Bureau of Statistics is abbreviated, ABS.

A.1. University of Adelaide

a. Bachelors of Science, Engineering, 1901-1949

Specialty and gross engineering bachelor total data.

University of Adelaide. Calendar. Annual. 1913, 1921,
1930, 1940, 1950. Cumulative name lists.

Up to 1941, the specialization is identified by the accompanying diploma from the South Australian School of Mines and Industries. (These diplomas are not separately enumerated in the SAIT counts.) For the years 1942-1949, the specialty is based on student card files held by the Registrar, University of Adelaide and kindly made available.

b. Bachelors of Engineering, 1913-1980

1. Specialty (1914-1951, 1955-1957, 1959-1960) and gross engineering total data.

1914-1950: University of Adelaide. Calendar. Annual. 1913,
1921, 1930, 1940, 1950. Cumulative name lists.

1951-1975: ABS. University Statistics. Annual. Numerical counts.

2. Net engineering total data.
1955-1975: University of Adelaide. Calendar. 1975.
Cumulative name list.
1976-1980: No data available.
3. Gross total bachelors data.
1879-1950: University of Adelaide. Calendar. Annual. 1879-1950. Numerical counts.
1951-1975: ABS. University Statistics. Annual. Numerical counts.
1976-1980: ABS. Unpub. materials. Numerical counts.

The first BScE degree was given in 1901 and the first BE was awarded in 1913. BScE degrees awarded previously could costlessly convert their BScE degrees into BE degrees upon application. Later BScE degrees involved course work without the final year of the BE; this degree saw substantial usage during WWII. Between 1901 and 1949, the distribution of degrees by first qualification was as follows:

	1901-1912	1913-1941	1942-1950	Total
BSc,E only	19	0	26	45
BSc,E with later BE	32	14	76	123
BE only	0	311	147	458
Total	51	325	249	626

In the tables of this essay, the engineering bachelors of the University of Adelaide are listed by their first qualification.

A.2. Deakin University

Bachelors of Engineering, 1978-1980

- i. Specialty data: none
- ii. Gross total engineering bachelors, 1978-1980
- iii. Gross total bachelors, 1978-1980
1976-1980: ABS. Unpub. materials. Numerical counts.
- iv. Net total bachelors: none

A.3. James Cook University

Bachelors of Engineering, 1970-1980

- i. Specialty data: none
- ii. Gross total engineering and gross total bachelors
1970-1975: ABS. University Statistics. Annual. Numerical counts.
1976-1980: ABS. Unpub. materials. Numerical counts.
- iii. Net total engineering bachelors data: none

A.4. University of Melbourne

Bachelors of Engineering, 1866-1980

- i. Specialty data, 1866-1970
- ii. Gross total engineering bachelors, 1866-1980
- iii. Gross total bachelors, 1858-1980
 - 1858-1970: University of Melbourne. Calendar. Annual.
 - 1958-1970. The specialization and gross BE totals for 1866-1957 derive from the summary numerical data provided in the annual reports. For 1958-1970 these items derive from name lists of degrees conferred. The gross total bachelors data, 1858-1970, derive from the numerical data in the annual reports.
- iv. Net total bachelors
 - 1951-1970: University of Melbourne. Calendar. Annual.
 - 1951-1970. Annual name lists.
- v. None

A.5. Monash University

Bachelors of Engineering, 1965-1980

- i. Specialty data, 1967-1972
 - Monash University. Calendar. Annual. 1967-1972. "Reports of Council".
- ii. Gross total engineering bachelors, 1965-1980
- iii. Gross total bachelors, 1965-1980
 - 1965-1975: ABS. University Statistics. Annual. Numerical counts.
- iv. Net total engineering bachelors, 1965-1980
 - Monash University. Calendar. Annual. 1965-1980. Annual name lists.

A.6. University of Newcastle

Bachelors of Engineering, 1966-1980

- i. Specialty data: none
- ii. Gross total engineering bachelors, 1966-1980
- iii. Gross total bachelors, 1966-1980
 - 1966-1975: ABS. University Statistics. Annual. Numerical counts.
- iv. Net total engineering bachelors: none

B.7. New South Wales University of Technology; University of New South Wales

- a. Bachelors of Engineering, 1952-1980
 - i. Specialty data, 1952-1960
ABS. University Statistics. Annual. Numerical counts.
 - ii. Gross total engineering bachelors, 1952-1980
 - iii. Gross total bachelors, 1952-1980
University of New South Wales. Statistics. Annual. 1981.
Numerical counts.
 - iv. Net total engineering bachelors: none
- b. Bachelors of Technology, 1962-1970; Bachelors of Science, Engineering, 1971-1980
 - i. Specialty data: none
 - ii. Gross total engineering bachelors, 1962-1980
1962-1970: ABS. University Statistics. Annual. Numerical counts. Taken from the category, "B.Tech." under the sub-group, "Engineering and Technology".
1971-1980: University of New South Wales. Statistics.
Annual. 1981. Numerical counts.
 - iii. Net total engineering bachelors: none

A.8. University of Queensland

- a. Bachelors of Engineering, 1915-1980
 - i. Specialty data, 1949-1960
ABS. University Statistics. Annual. Numerical counts.
 - ii. Gross total engineering bachelors, 1915-1980
 - iii. Gross total bachelors, 1913-1980
University of Queensland. Statistics. Annual. 1959, 1961,
1986. Numerical counts.
 - iv. Net total engineering bachelors: none
- b. Bachelors of Applied Science, 1921-1967
 - i. Specialty data, 1921-1967
 - ii. Gross total engineering bachelors, 1921-1967
University of Queensland. Statistics. Annual. 1959, 1961,
1986. "Industrial Chemistry". Numerical counts.
 - iii. Net total engineering bachelors: none

A.9. University of Sydney

- Bachelors of Engineering, 1885-1980; Bachelor of Science, Chemical Engineering
- i. Specialty data, 1885-1973
 - ii. Gross total engineering bachelors, 1885-1980

- iii. Net total engineering bachelors, 1955-1973
 - 1885-1954: University of Sydney. Calendar. Annual. 1913, 1954. Cumulative name lists.
 - 1955-1973: University of Sydney. Calendar. Annual. 1955-1973. Cumulative name lists and annual numerical counts.
- iv. Gross total bachelors, 1859-1980
 - 1859-1896: University of Sydney. Calendar. Annual. 1913. Cumulative name list.
 - 1897-1939: University of Sydney. Calendar. Annual. 1898-1940. Annual numerical count.
 - 1940-1948: University of Sydney. Calendar. Annual. 1952. Cumulative name list.
 - 1949-1975: ABS. University Statistics. Annual. Numerical counts.
 - 1976-1980: ABS. Unpub. materials. Numerical counts.

A.10. University of Tasmania

Bachelors of Engineering, 1925-1980

- i. Specialty data: none
- ii. Gross total engineering bachelors, 1925-1980
- iii. Gross total bachelors, 1894-1980
 - 1894-1922: University of Tasmania. Calendar. Annual. 1916/17, 1925. Cumulative name lists.
 - 1923-1948: University of Tasmania. Calender. Annual. 1926-1949. Annual numerical counts in annual reports.
 - 1949-1975: ABS. University Statistics. Annual. Numerical counts.
 - 1976-1980: ABS. Unpub. materials. Numerical counts.
- iv. Net total engineering bachelors
 - 1957-1971: University of Tasmania. Calendar. Annual. 1957-1971. Annual name lists.
 - 1972-1976: none.
 - 1977-1980: University of Tasmania. Calendar. Annual. 1977-1980. Annual name lists.

A.11. University of Western Australia

a. Bachelors of Engineering, 1925-1980

- i. Specialty data: none
- ii. Gross total engineering bachelors, 1925-1980
- iii. Gross total bachelors, 1917-1980
 - 1917-1948: University of Western Australia. Calendar. Annual. 1948. Cumulative name list.
 - 1949-1975: ABS. University Statistics. Annual. Numerical counts.
 - 1976-1980: ABS. Unpub. materials. Numerical counts.

b. Bachelors of Science, Engineering, 1941-1953

- i. Specialty data: none
- ii. Gross total engineering bachelors, 1941-1953
 - 1941-1948: University of Western Australia. Calendar. Annual. 1948. Cumulative name list.
 - 1949-1953: ABS. University Statistics. Annual. Numerical counts.

A.11. University of Wollongong

Bachelors of Engineering and Bachelor of Science,

- i. Specialty data, 1976-1980
- ii. Gross total engineering bachelors, 1976-1980
 - Private correspondence from the Statistics Officer, University of Wollongong.
- iii. Gross total bachelors, 1976-1980
 - 1976-1980: ABS. Unpub. materials. Numerical counts.
- iv. Net total engineering bachelors: none

B. Technical Colleges, Institutes of Technology, Schools of Mining and Colleges of Advanced Education

Information on technical colleges, institutes of technology, schools of mines and colleges of advanced education is more complete than for the universities. Since the sources are overwhelmingly lists of names who received awards, it is assumed below that the listed source provided gross totals, net totals, and specializations, unless noted otherwise. Furthermore, unless noted otherwise, it is assumed that the information sought (award by school, by specialization, and Australian/foreign student status) is complete over the cited time span.

B.1. The School of Mines, Ballarat

Diplomates, 1908-1976:

Warren Perry, The School of Mines and Industries, Ballarat. A History of its First Hundred and Twelve Years, 1870-1982. Ballarat: School of Mines and Industries Ballarat Ltd, 1984. Pp. 583-597. Cumulative name list.

B.2. Bendigo School of Mines; Bendigo Technical College; Bendigo College of Advanced Education

Diplomates, 1905-1980; Bachelors of Engineers, 1977-1980

Bendigo College of Advanced Education. Registrar. List of Ex-Students Who Gained Awards in Engineering. Unpub. ms., 1986. Cumulative name list.

B.3. Caulfield Institute of Technology; Chisholm Institute of Technology

Diplomates, 1952-1980; Bachelors of Engineering, 1973-1980

1952-1970: Chisholm Institute of Technology. Register of Diplomates up to 1970. Unpub. ms., 1987. Cumulative name list.

1971-1980: Chisholm Institute of Technology. List of Graduates. Annual. 1971-1980. Annual name lists.

There were 45 double diplomates in electrical and mechanical engineering, 1952-1970. Since the purpose of the census is to count persons, the 33 persons who were awarded their double awards in separate years are allocated to their first diploma award year. The remaining 11 persons whose double diplomas came in the same year are arbitrarily assigned years in the following manner: if there was an even number of double award persons in a given year, half are assigned to electrical and half to mechanical; if there was an odd number of double award persons, alternating year to year.

B.4. Footscray Technical College; Footscray Institute of Technology

Diplomates, 1925-1980; Bachelors of Engineering, 1974-1980

1925-1966: Footscray Technical College. Handbook. 1967. Cumulative name list.

1967-1980: Footscray Institute of Technology. Cumulative List of Diploma and Bachelor Degree Holders, 1925-1985. Unpub. ms., 1986. Annual name lists.

Double awards in mechanical and civil in 1941 and mechanical and marine in 1943 are arbitrarily assigned to the mechanical category of their respective years on the basis that the mechanical award was listed first.

B.5. Gordon Technical College; Gordon Institute of Technology

a. Diplomates, 1919-1977

Deakin University. Names of Students Who Received Awards: Gordon Institute of Technology. Unpub. ms., 1986. Cumulative name list.

b. Bachelors of Engineering, 1973-1980

1973-1977: Deakin University. Names of Students Who Received Awards: Gordon Institute of Technology. Unpub. ms., 1986. Cumulative name list.

1978-1980: Private correspondence from R. H. Elliot, Acting Registrar, Deakin University, 21 July 1986. Annual name lists.

B.6. Hobart Technical College

Diplomates, 1925-1979

- 1925-1945: Hobart Technical College. Prospectus. Annual.
 1958. "Diplomates of the HTC. Diplomas Awarded Since
 1925." Pp. 78-84. Cumulative name list.
 1946-1956; 1962-1968: Parliament of Tasmania. Education
 Department. Report of the Year .. Annual. Numerical counts.
 1957-1961: Brian E. Lloyd. 1968. The Education of
 Professional Engineers in Australia. 3rd. Ed. (Melbourne:
 APEA). P. 478. Numerical counts.
 1969-1980: ABS. 1969-1980. CAE Statistics. Annual. Numerical
 counts.

From 1946 onward the small number of diplomas awarded by other Tasmanian schools under the Tasmanian Education Department are added to the Hobart T. C. totals. Administration of all these diploma programs passed to the Tasmanian College of Advanced Education in 1972.

B.7. Melbourne Technical College; Royal Melbourne Technical College; Royal Melbourne Institute of Technology

a. Associates, 1903-1977; Fellows, 1936-1977

- 1903-1950: Melbourne Technical College. Prospectus. Annual.
 1952. Cumulative award list.
 1951-1960: Royal Melbourne Technical College. Calendar.
 Annual. 1961. Cumulative name list.
 1961-1964. Royal Melbourne Institute of Technology. Calendar.
 Annual. 1965. Cumulative name list.
 1965-1977. Royal Melbourne Institute of Technology. Calendar.
 Annual. 1966-1978. Annual name lists.

b. Bachelors of Engineering, 1972-1980

- 1972-1977: Royal Melbourne Institute of Technology. Calendar.
 Annual. 1973-1978. Annual name lists.
 1978-1980: Manuscript data kindly provided by the Tertiary
 Education Commission, Commonwealth of Australia. Numerical
 counts.

B.8. New South Wales Institute of Technology

Diplomates, 1971-1979; Bachelors of Engineering, 1972-1980

- 1971-1972: New South Wales Institute of Technology. Calendar.
 Annual. 1972-1973. Annual name lists.
 1973-1980: New South Wales Institute of Technology.
Conferring of Degrees and Presentation of Diplomas.
 Annual. 1973-1985. Annual name lists.

The annual counts reported for NSWIT diplomates exclude those who subsequently received a Bachelors of Engineering degree from NSWIT. Annual name lists were checked through 1985 to obtain the appropriate net diplomate counts through 1980.

B.9. Preston Diploma School; Preston Institute of Technology

Diplomates, 1966-1980; Bachelors of Engineering, 1977-1980

Official graduation lists and programs, kindly supplied by M. D. Knight, Academic Registrar, Phillips Institute of Technology. Annual name lists.

These sources give a partial accounting of diplomas awarded by the Preston D.S. and its successor Preston I.T. for the years 1964-1971. It is known that there were 30 diplomates in the first class of 1964, but their specializations are not known. There is no information on the class of 1965 and the lists for 1969-1971 appear undercounted. The 1965-1971 count is therefore partial and incomplete.

B.10. Perth Technical College

Associates, 1946-1967

Perth Technical College. Register of Graduates. Unpub. ms, kindly supplied by P. Bianchi, Registrar, Perth Technical College, 3 July 1986. Cumulative name list.

B.11. Queensland Institute of Technology

Diplomates, 1968-1971; Bachelors of Engineering, 1968-1980; Bachelors of Technology, 1970-1979

Gross Totals Only.

Private correspondence with B. S. Wates, Registrar, Queensland Institute of Technology, Brisbane, 14 July 1986. Numerical counts.

In 1965 QIT began offering two types of award courses, the Fellowship Diploma and the Associate Diploma. The first Fellowship Diplomas were awarded in 1968. In 1973 the Fellowship Diploma was upgraded to a Bachelor of Engineering and Fellowship graduates back to 1968 received a retrospective BE degree; they are so listed in this census. In 1975 the Associate Diploma was upgraded to a Bachelor of Technology; Associate Diplomates from 1970 were awarded a retrospective BT degree and are so listed in this census. The BT course produced its last degree in 1979.

B.12. South Australian School of Mines and Industries; South Australian Institute of Technology

a. Associates, 1890-1969

- 1890-1962: South Australian Institute of Technology. Graduate List. 1962. Cumulative name list.
 1963-1972: South Australian Institute of Technology. Programs. Graduation Ceremony. Annual. 1963-1972. Annual name lists.

In order to exclude associates who later qualified for bachelor degrees from the University of Adelaide or SAIT, the sources just listed were compared with the relevant UAd and SAIT sources. From 1970 to 1972 SAIT awarded Diplomas of Technology. These diplomas were converted wholesale into Bachelors of Technology in 1972. In this census they are enumerated as bachelors.

b. Bachelors of Technology, 1958-1976; Bachelors of Applied Science, Engineering, 1974-1980; Bachelor of Engineering, 1980

- 1958-1962: South Australian Institute of Technology. Graduates List. Annual. 1962. Cumulative name list.
 1963-1980: South Australian Institute of Technology. List of Graduates. Annual. 1963-1980. Annual name list.

From 1958 to 1976 SAIT bachelors engineering candidates received Bachelors of Technology or Bachelors of Applied Science from the University of Adelaide. Starting in 1974, SAIT awarded bachelors degrees of its own.

B.13. Swinburne Technical College; Swinburne College of Technology; Swinburne Institute of Technology

Diplomates, 1921-1980; Bachelors of Engineering, 1974-1980

Gross specializations and totals

1921-1980: Private correspondence with G. L. Williamson, Registrar, Swinburne Institute of Technology, 17 July 1986. Cumulative name lists.

Net specialization and totals.

1921-1950: Private correspondence with G. L. Williamson, Registrar, Swinburne Institute of Technology, 17 July 1986. Cumulative name lists.

1961-1969: Swinburne Technical College. Handbook of the Swinburne Technical College. Annual. 1964-1970. Annual name lists.

1970-1980: Official graduation programs, kindly supplied by G. L. Williamson, Registrar, Swinburne Institute of Technology. Annual name lists.

B.14. Sydney Technical College

Associates, 1894-1966

- 1894-1944: Sydney Technical College. Handbook. Annual. 1946.
"Fellows and Associates of Sydney Technical College Prior to
June 1946". Cumulative name list.
1945-1966: Sydney Technical College. Handbook. Annual. 1946-
1967. "Associateships Conferred". Annual name list.

These data include associates who did some or all of their work at the Newcastle, Wollongong, Broken Hill, and Lithgow branches, as well as the main, downtown Sydney branch.

B.15. Western Australian Institute of Technology

Associates, 1968-1980; Bachelors of Engineering, 1970-1980;
Bachelors of Applied Science, Engineering, 1970-1980

Gross Totals Only

Private correspondence with A. O. de Sousa, Academic Registrar,
Western Australian Institute of Technology, 26 June 1986 and
14 July 1986. Numerical counts.

B.16. Western Australian School of Mines

Associates, 1915-1980

- 1907-February, 1980: Western Australian School of Mines. Western Australian School of Mines Graduates December 1907 - February 1980. Unpub. ms., 1980. Kindly supplied by L. Clarris,
Personal Assistant to the President, Western Australian School of Mines. Cumulative name list.
December 1980: Western Australian School of Mines. Awards.
Unpub. ms., 1980. Kindly supplied by L. Clarris. Annual name list.
